Endurance Trail 2019 Final Instructions No. 2

Due to supply problems with the Starmaxx IceGripper, the equivalent Petlas tyre is allowed in the two Endurance classes, as it made by the same manufacturer and is just a rebranded Starmaxx, with the same tread pattern".

Otherwise, you will have confusion between competitors and scrutineers, who should be advised of this rule, which has been sanctioned by the Navigation Sub-Committee.

There is a new layout for the Hotel Kilmore, please take note that the entrance to trailer park has changed and the start and finish of the endurance has changed also.

Yours in Motorsport

Gerard Hyland

Clerk of the Course
